- 9. Vendors Master Data
- 10. Items Catalog

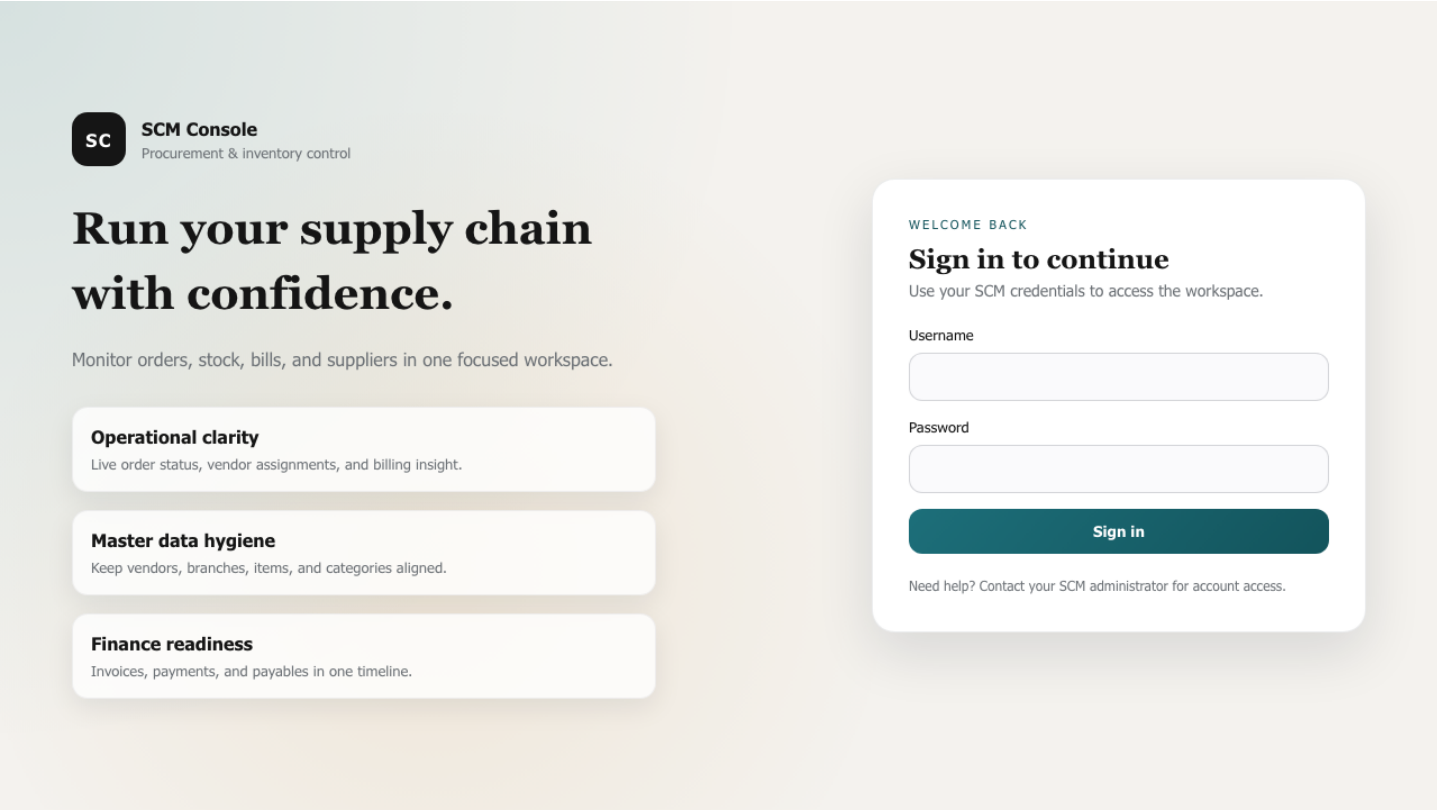

1. Login Screen

Overview

First screen where users authenticate to the system with username and password.

Features

- Username/email input
- Password field
- Sign In button
- Error message display

Login page - User authentication

2. Dashboard

Overview

Home screen showing operational snapshot with KPIs for the current month.

Key Metrics

- Order Status Breakdown - Orders by status
- Sales Summary - Invoice count and revenue
- Stock Snapshot - Total items and quantity
- Billing by Vendor - Top vendor billing
- Billing by Branch - Top branch billing
- Vendor Operations - Operational KPIs
- Branch Operations - Branch KPIs

End-to-End Workflows

Workflow 1: Order to Invoice to Payment

- Create Order (Orders > Create Order)
- Manage Order (Assign Vendor > Upload PDF > Capture Bill)
- Create Invoice (Bills > Create Invoice > Select Order)
- Record Payment (Bills > Payment > Select Invoice > Submit)

Workflow 2: Monitor Vendor Health

- View Vendor Summary (Operations > Vendor Ops)
- Click Vendor for Details (Drill-down view)
- Review KPIs, Orders, Ledger
- Export Ledger to CSV

Workflow 3: Track Branch Receivables

- View Branch Summary (Operations > Branch Ops)
- Click Branch for Details (Drill-down view)
- Review Pending Orders, Payment Rate
- Check Overdue Invoices & Exceptions
